

Vivid Money Google Pay Supplement

Effective Date: 10 January 2024

These terms (the “**Vivid Money Google Pay Supplement**”) relate to your agreement with Vivid Money S.A. (“**Vivid Money**” or “**us**” or “**we**”) for the use of the Vivid Money Account and Vivid Card as governed by our General Terms and Conditions, the Vivid Card Terms and Conditions and the Privacy Policy available in Vivid App and on our website www.vivid.money. If there is any conflict between them, our General Terms and Conditions will prevail.

How to get started

To use Google Pay, you will need to link your Vivid Card to your Google Pay virtual wallet and accept these terms. Once you have done this, you will be ready to use Google Pay anywhere you see the contactless payments logo or with certain merchants selling goods or providing remote services and having the Google Pay logo on their websites or applications.

Your Vivid Card will be debited and you will see the transactions in your Timeline tab of Vivid App, as well as in the Google Pay application.

Limits and other restrictions

There may be certain limits applicable to the contactless payments done through Google Pay depending on the merchant, the terminal that is being used, the country of its location and the applicable regulatory requirements. In certain cases you may be required to enter your PIN or biometric authentication in order to complete the transaction.

Your transactions through Google Pay will be subject to the same limits that we apply to your Vivid Card, if any.

Security

You must follow the security recommendations contained in the General Terms and Conditions and Vivid Card Terms and Conditions. You will remain responsible for all the transactions performed using Google Pay using your device or on merchant’s web sites,

therefore, you must keep your device security elements (such as PIN or password) secure and don't allow anybody to use your Google Pay or Google Account.

If we stop, suspend or restrict your Vivid Card pursuant to the Vivid Card Terms and Conditions or our General Terms and Conditions, you will no longer be able to use Google Pay.

Miscellaneous

Android, Google and Google Pay are trademarks of Google Ireland Limited or its affiliates. Your use of Google Pay, other Google services and Android devices remains subject to the terms that you have with Google.
