Additionally, please note that we work closely with CM-Equity AG ("CME"), which can be contacted at Kaufingerstraße 20, 80331 München, Germany, in order to provide you with investment services. We and CME jointly determine the purposes and means of processing your personal data for certain operations on the basis of a joint controller agreement within the meaning of Article 26 GDPR. Among other things, the joint controller agreement specifies that you can assert all rights relating to processing of your data against us and CME.

Why we process your personal data (legal basis)

1. Contract

When you use the Vivid Money app, which is operated by our partner Vivid Money GmbH ("Vivid Money"), you have an opportunity to open an investment pocket. By opening this investment pocket, you will start receiving services via Vivid Invest GmbH. Within this pocket you can trade fractional shares, a service

which we offer in cooperation with our partner CME. Certain personal data is necessary for entering into this agreement and for subsequent delivery of the services included. This data is processed by us, CME and any other third parties who help us to provide you with the investment services. The lawful basis for this processing is Art. 6 (1)(b) of the GDPR - processing which is necessary for the performance of a contract to which you are party or in order to take steps at your request prior to entering into a contract.

Please note that for our investment brokerage services and features, without the necessary personal data we and our partners will not be able to fulfil our contractual obligations, and therefore we will likely have to refuse entering into, or terminate a business relationship with you.

2. Legitimate interests

Sometimes we need to collect and process your personal data to safeguard our legitimate interests or the legitimate interests of third parties. In these cases we also process your data lawfully according to Article 6 (1)(f) of the GDPR. Examples of such processing include:

- Ensuring IT security
- Preventing criminal activity, such as fraud
- Push notifications or messages relating to your existing or new services and offers
- User experience analytics and optimization
- Personalization of services and tariff options
- Defense of and against legal claims
- Investor Protection

3. Consent

If you gave us consent to process your personal data for one or more specific purposes, for example to place cookies on your device or to send you marketing materials, we process these data according to Article 6(1)(a) of the GDPR. You can withdraw your consent at any time. However, keep in mind that the processing which took place before withdrawal remains lawful.

4. Legal obligation

In cases where we or our partners are required to comply with any applicable laws, your personal data is processed according to Article 6(1)(c) of the GDPR - processing is necessary for compliance with a legal obligation.

Some examples of processing here include verification of your identity and age, prevention of money laundering and fraud, and tax reporting obligations.

When we process your personal data

Account opening

In order for you to enter into an agreement with CME and open an investment account, we and our partners process the following personal data: your name, email, passport/IDcard, photo/video of you, tax country, Vivid client ID, CME client ID.

The majority of this data is not collected directly from you when you open your investment account. For your convenience, we simply transfer to CME the personal data you provided to Solarisbank when you opened your Vivid Money bank account.

If the data collected from Solarisbank is not complete for the purposes of the provision of investment services, additional data requests can be made. Examples could include:

- Any outdated personal information (e.g. expired IDs)
- Personal Identification or Document Numbers (e.g. Passport Number)
- Personal Tax Identification Numbers

We also ask a few questions concerning your knowledge and experience in financial services and products and your previous trading experience in order to determine if our services are appropriate for you. The answers are retained with your application.

Identity verification

In order to open an account for you with CME, it is necessary to verify your identity. However, you do not need to undergo another identity verification procedure, because the results of the KYC/AML check and your personal data used for account opening with Solarisbank are shared with CME.

Transactional data

When you use your account, we process data related to your entering into and executing transactions with financial instruments: date, time, amount, currency, name of the product, etc. This data is also used to create reports, account statements, or any other applicable documentation.

When you contact us via support chat or by any other means, we may process such categories of personal data as your email, phone number, language, country, as well as any information about the standing of your account or details of your transactions, depending on the issue you are experiencing. We may also collect other information if you choose to share it with us. Please do not share any additional personal data or documents, either concerning yourself or other individuals, unless specifically requested by us.
